

Yanil García

ABOUT ME

I'm a third-year Computer Systems Engineering student with foundations in software development. My experience is centered on database management, focusing on design, data modeling, query optimization and report generation.

I also have experience in web system development, including interface design and back-end logic. Additionally, I have a B1 English level, which allows me to use technical documentation and have fluent conversations.

EXPERIENCE

Development

FARMATRIX S.A.S.
04/2025 - PRESENT

- Generated and maintained reports on SQL Server.
- Optimized SQL queries to improve the performance and precision of generated reports.
- Provided help desk assistance to users.

EDUCATION

Computer System Engineering Bachelor

UNIVERSIDAD TECNOLÓGICA DE SANTIAGO (UTESA)
09/2022 - PRESENT
